"When a man is tired of London, he is tired of life; for there is in London all that life can afford."
Samuel Johnson

LANGUAGE FOR CAUSE AND EFFECT

Developed and compiled by
Michael Warrick

A **cause** could be an idea, action, situation, problem or event, which happens and **produces** *an effect* - another idea, situation, action or event. In academic writing you may need to link causes with their effects. Here are examples of essay titles where this would be required:

- Explain the consequences of the rising divorce rate in modern society
- Examine the role of human activity *in causing* climate change

Words that commonly link causes with their effects are **verbs**, **conjunctions**, **prepositional phrases** and **nouns**.

VERBS FOR CAUSE AND EFFECT

Example: The discussion *generated* many ideas.
Many ideas *were generated* by the discussion.

EXERCISES

1. In these sentences, which verbs introduce a cause, and which verbs introduce an effect?

a) Increased atmospheric CO_2 *causes* an enhanced greenhouse effect.

b) An enhanced greenhouse effect *arises* from increased atmospheric CO_2.

c) Increased atmospheric CO_2 *leads to* an enhanced greenhouse effect.

d) An enhanced greenhouse effect *results from* increased atmospheric CO_2.

e) Increased atmospheric $C0_2$ *results in* an enhanced greenhouse effect.

f) Increased atmospheric $C0_2$ *produces* an enhanced greenhouse effect.

g) Increased atmospheric CO_2 *gives rise* to an enhanced greenhouse effect.

h) An enhanced greenhouse effect *is produced by* increased atmospheric $C0_2$.

i) An enhanced greenhouse effect *is caused by* increased atmospheric $C0_2$.

©Michael Warrick 2024

2. What do you notice about the prepositions used after the verbs in the sentences above?

i) Which prepositions tend to be used with verbs to introduce an effect?

.....

ii) Which prepositions tend to be used with verbs to introduce a cause?

……..……...

iii) Do passive verbs introduce a cause or effect?

……

3. Read the following paragraph carefully and identify whether each coloured phrase is a cause or effect:

The observed changes in global climate are likely TO ARISE FROM **a) EFFECT** combination of both natural and human causes. The Earth's climate varies naturally AS A RESULT OF interactions between the ocean and the atmosphere, changes in the Earth's orbit, fluctuations in the sun's energy, and volcanic eruptions **b)** …….. Human activities CONTRIBUTE TO c) ..... global climate primarily by INCREASING emissions of greenhouse gases, such as carbon dioxide and methane**.** At present, for example, about 6.5 billion tons of carbon ARE EMITTED globally into the atmosphere each year, mostly THROUGH the combustion of coal, oil and gas for energy **d) .....**Changes in land use result in further annual emissions of between one and two billion tonnes of carbon. Moreover, increasing concentrations of greenhouse gases in the atmosphere over the last 200 years have TRAPPED e) ……..……. more energy in the lower atmosphere, thereby ALTERING global climate f) …….

DEFINITIONS

1. Match each verb below with its definition and compare your answers with a partner:

a) Affect	**i)** to make something happen, especially something unpleasant
b) Generate	**ii) a)** to happen as a result of a particular situation **b)** (formal) to begin to exist or develop
c) Arise (from)	**iii)** to have an influence on someone or something, or to cause a change in someone or something
d) Attribute (to)	**iv)** to make a feeling or situation exist
e) Contribute (to)	**v) a)** to obtain something from something else; **b)** come from **c)** to calculate, discover or establish something, using information that is available
f) Facilitate	**vi)** to say or believe that something is the result of a particular thing
g) Derive (from)	**vii) a)** to create feelings, opinions or situations; **b)** produce a physical effect
h) Cause	**viii)** to be one of the causes of something
i) Result (from)	**ix)** to affect or change how something or someone develops, behaves or thinks
j) Influence	**x)** to happen because of something else that happened first
k) Engender	**xi)** to make an action or a process possible or easier

2. *Cause and contribute* (*to*) both have similar meanings**. What is the difference in their meaning?**

…

3. Note the verbs which have similar meanings to:

a) affect: i) …….

b) result from i)…… ii) ……..…….

c) engender i) …….

©Michael Warrick 2024

CAUSE AND EFFECT VERBS IN CONTEXT

1. Complete the following sentences with suitable verbs from the box; each verb, except cause, is used only once; you should provide an appropriate form and tense. Do the words in green font refer to causes or effects?

affect; contribute; derive; influence; attribute; cause (x2); facilitate; arise; generate

a) Researchers have created an A.I. that is capable of ..... new Shakespearean sonnets. *Cause / Effect*

b) Both buildings were badly..... by the fire. *Cause / Effect*

c) The institute.....all its money from foreign investments *Cause / Effect*

d) If inhaled, the gas can.....damage to the lungs. *Cause / Effect*

e) Problems.....if the parents' approach to discipline is inconsistent. *Cause / Effect*

f) Poor care may have ..... significantly to the patient's death. *Cause / Effect*

g) Poor sleep is often ..... to stress. *Cause / Effect*

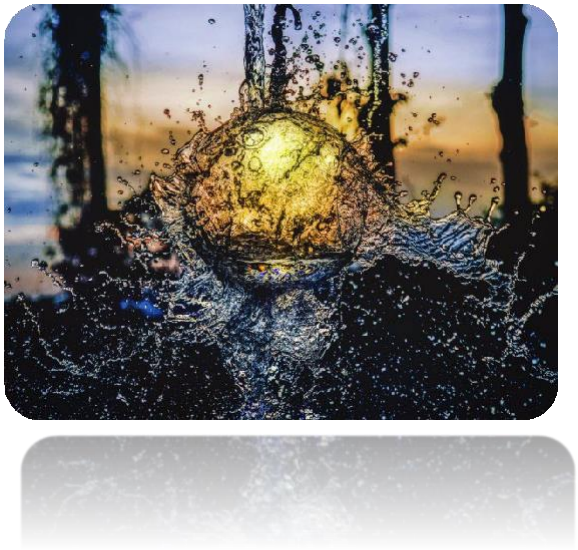
h) The high elevation of mountain ranges ..... them to erode rapidly. *Cause / Effect*

i) The government's campaign is aimed at.....public opinion. *Cause / Effect*

j) In mathematics, children's capacity for learning has been greatly .....by the use of technology. *Cause / Effect*

©Michael Warrick 2024

USE OF ENGLISH



1. Complete the text below using any word you consider appropriate according to the context:

Acid rain is precipitation that contains abnormal levels of chemical compounds **1.** …….. human activity. It is **2.** …….. nitrogen oxides and sulphur dioxide released into the atmosphere by the combustion of fossil fuels. These gases are transported by air currents and may fall to the ground as dry precipitation (i.e., gases and particulates), or they may react with water in the atmosphere **3.** ….....to nitric acid (HNO3) and sulfuric acid (H2SO4), falling to earth as wet precipitation (e.g. rain, snow, fog). In the environment, acid rain **4. .....**trees by damaging their leaves, limiting the nutrients available to them, or poisoning them with toxic substances slowly **5.** ……. the soil. Acid deposition can accumulate in ponds, lakes and rivers, **6. .....**a decline in fish populations and other aquatic species. It also **7.....**the corrosion of iron and steel structures and the weathering of limestone statues, monuments and tombstones dry precipitation is particularly deleterious to human health, as particulates can **8.** ……. respiratory issues such as bronchitis and asthma.

©Michael Warrick 2024

NOUNS FOR CAUSE AND EFFECT

1. **Complete the example sentences in column 2 by inserting an appropriate preposition. More than one preposition may be possible:**

NOUN	DEFINITION	SAMPLE SENTENCE
Determinant	• A factor that decides, controls or predominantly influences an outcome or situation	• Population and income are **determinants** ……..…. greenhouse gas emissions and hence of global warming.
Response	• a reaction to something that has happened or been said	• Climate varies **in response** …… the energy output of the sun.
Consequence	• (often plural) A result of something that has happened (often used to refer to possible negative results of an action)	• Global warming could have **serious consequences** …… agriculture and areas of habitable land. • **As a consequence** …… its vast size, China's climate ranges from one extreme to the other.
Impact	• (usually singular) the powerful effect that something has on someone/something	• The injury may have a **significant impact** ……. the patient's daily life.
Influence	• The power or capacity to affect the way that something develops, or the way a person thinks or behaves	• A number of recent studies have examined the **influence of** university research.....industrial innovation.
Outcome	• the result or effect of an action or dispute or situation	• We are hoping for a **positive outcome** …..... the discussions.
Reason	• a cause or an explanation for something that has happened or that someone has done	• A paucity of studies explores the **reasons** ……. the continuation of alcohol use. • Natural gas is a desirable fuel ..... **several reasons.**

©Michael Warrick 2024

		• Population movement is the **main reason why** it is difficult to produce accurate estimates.
Source	• a thing, situation or person that causes something, especially a problem	• GM food is widely acknowledged to be the **source** …… both potential economic benefits and serious concerns.
Contributor	• Something that helps to cause something; causal Factor	• Environmental and lifestyle factors are **major contributors.....** gastric cancer.

©Michael Warrick 2024

CAUSE AND EFFECT NOUNS IN CONTEXT

1. Give an appropriate noun from the table on the previous pages for each gap in the sentences below; **each noun is used only once:**

a) The vast destruction wreaked by the bombings of Hiroshima and Nagasaki and the loss of 135,000 people made little..... on the Japanese military.

b) Kotz (2017) analyzes the primary ..... for the rise of free-market ideas, policies, and institutions beginning around 1980.

c) The.....of the drought were devastating for farmers.

d) Polluted water is a very important.....to the world water crisis.

e) The increase in heart rate seen in young people in .....to exercise may not be evident in older people.

f) A poorly prepared curriculum can be a..... of stress for students.

g) Zhu Xi's ideas exerted a considerable.....on traditional Chinese thought and culture.

h) The social .....of health are the conditions in which people are born, grow, live and work.

i) The economy is regarded as the key factor that will decide the.....of the election.

©Michael Warrick 2024

SUBORDINATING CONJUNCTIONS/CONJUNCTS AND PREPOSITIONS FOR CAUSE AND EFFECT

1. The conjunctions/prepositional phrases in the table below introduce a cause or effect:

Subordinating conjunctions / prepositions ***followed by a cause***		**Conjuncts / prepositions** ***followed by an effect***	
Prepositions (followed by a noun or noun phrase)	Subordinating conjunctions (joining ideas within a sentence and followed by a subject and verb)	Prepositions (followed by a noun or noun phrase)	Conjuncts (joining ideas between sentences and followed by a subject and verb)
(be) due to... Following as a result of... because of... owing to... on account of... in response to	because … since … as … when … if …	(be) responsible for...	therefore, … consequently, … as a result, … thus, ... as a consequence, … hence,…

Prepositional Phrases

2. The prepositions in columns 1 and 3 can be used in front of nouns or pronouns to make prepositional phrases. A prepositional phrase may come before or after an independent clause. **Why is there a comma in the middle of sentence (a)?**

prepositional phrase independent clause
a) On account of the enormous costs, it was decided not to undertake the project.

independent clause prepositional phrase
b) It was decided not to undertake the project because of the enormous costs.

Dependent Clauses

3. Similarly, dependent clauses (i.e. those beginning with a subordinating conjunction) may come before or after an independent clause. **Why is there a comma in the middle of sentence (b)**?

independent clause dependent clause
a) He was unable to attend class because he was ill.

dependent clause independent clause
b) Because he was ill, he was unable to attend class.

©Michael Warrick 2024

4. *Due to*, *owing to* and *on account of* may be replaced by *due to the fact that*, *owing to the fact that* and *on account of the fact that*; such phrases behave like subordinating conjunctions:

- Due to the fact that many students are in middle of Semester 1 exams, the exhibition of Monet's paintings has been postponed to Semester 2.

5. Note the use of *if* to indicate cause and effect:

- If a business does not focus on the customer, it will drift off course.

SUBORDINATING CONJUNCTIONS/CONJUNCTS AND PREPOSITIONAL PHRASES FOR CAUSE AND EFFECT IN CONTEXT

Modify the following sentences according to the instructions; you should be careful to retain the original meaning. You may need to change word forms, delete/add words and change word order. Be careful to punctuate correctly:

Example:

a) *Use since at the beginning of the sentence:*

- Jiang's hard work in class meant that he was awarded a Distinction at the end of the year.

SOLUTION: Since Jiang had worked hard in class, he was awarded a Distinction at the end of the year.

b) *Use since at the beginning of the sentence:*

- Human rights are inalienable and indivisible, which means that no-one can be deprived of these rights.

…….

…….

c) *Use due to in the middle of the sentence:*

- Factors such as the expansion of agriculture, hunting and climate change have threatened about one in eight species with global extinction.

…….

…….

©Michael Warrick 2024

d) (Use *on account of* in the middle of the sentence).

- Lihwa was very successful in her course, so she was able to apply to Cambridge University.

…….

…….

e) *Use following at the beginning of the sentence:*

- Snow fell heavily during the night, resulting in the closure of all the schools in Weihai.

…….

…….

f) *Use if at the beginning of the sentence:*

- Students who perform well in their Semester 2 exams will be permitted to study Spanish the following year.

…….

…….

g) *Use responsible for in the middle of the sentence:*

- According to recent research, the tendency to join political groups may arise from a specific gene (Johnson *et al*., 2018; Parker, 2017).

…….

…….

h) *Use as at the beginning of the sentence:*

- The Hindenburg ignited in a huge fireball because it was filled with hydrogen.

…….

…….

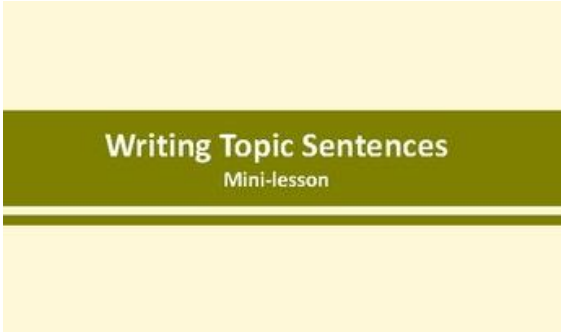
CAUSE AND EFFECT IN ESSAY TITLES AND TOPIC SENTENCES



Quick Review: Components of a Strong Topic Sentence

A good topic sentence in a cause–effect essay usually contains:

1. *The topic* (what the paragraph is about)
2. *A controlling idea* (the specific focus of the paragraph)
3. *Clear cause or effect language* (signals showing direction of logic)

Example Topic Sentence

1. Can you break down the sentence below?

Many small firms invest in digital platforms in order to improve supply chain visibility.

- Topic: …….
- Cause: …….
- Effect: …….
- Signal language: *in order to* (shows purpose/effect)

2. Look at the essay titles and topic sentences in the table below and answer the questions:

ESSAY TITLE AND TOPIC SENTENCE FROM A MAIN BODY PARAGRAPH	Does the essay title focus more on causes, effects or both?	Do the prepositions, verbs or conjunctions in the topic sentences introduce cause(s) or effect(s)?
A. *Examine the reasons for migration from rural to urban areas* *Topic sentence: Most migrants move to the city in response to the need to improve their economic situation.*		
B. *Explore the ways in which learning can be affected by sleep deprivation* *Topic sentence: Sleep deprivation can significantly impair memory, decision-making and the production of language.*		

©Michael Warrick 2024

C. Outline the causes and effects of globalization *Topic sentence: Globalization increases awareness of global issues and permits the sharing of ideas and lifestyles.*		
D. Consider the impact of tourism on an area's inhabitants and their culture *Topic sentence: Tourism promotes cultural awareness and can preserve local culture and traditions.*		
E. Explain how clouds are formed *Topic sentence: Frontal clouds are formed when a mass of warm air rises up over a mass of cold, dense air.*

EAP READING: JOHNSON'S DICTIONARY

BRIEF BIOGRAPHY OF SAMUEL JOHNSON

Samuel Johnson (1709 - 1784)

Samuel Johnson (18 September 1709 - 13 December 1784), often referred to as Dr Johnson, was an English author who made lasting contributions to English literature as a poet, essayist, moralist, literary critic, biographer, editor and lexicographer. Johnson has been described as arguably the most distinguished man of letters in English history. He is also the subject of the most famous single work of biographical art in the whole of literature: James Boswell's Life of Samuel Johnson.

Johnson was born in Lichfield, Staffordshire, and attended Pembroke College, Oxford for just over a year, before his lack of funds forced him to leave. After working as a teacher he moved to London, where he began to write various pieces for The Gentleman's Magazine. His early works include the biography The Life of Richard Savage, the poems "London" and "The Vanity of Human Wishes", and the play Irene.

After nine years of work, Johnson's "A Dictionary of the English Language" was published in 1755; it had a far-reaching effect on Modern English and has been described as one of the greatest single achievements of scholarship. This work brought Johnson popularity and success. Until the completion of the Oxford English Dictionary 150 years later, Johnson's was viewed as the pre-eminent British dictionary. (*Adapted from: http://en.wikipedia.org/wiki/Samuel_Johnson*)

JOHNSON'S DICTIONARY

1. Scan the following passage below and try to guess the meanings of the words in bold:

For the century before Samuel Johnson's Dictionary was published in 1775, there had been concern about the state of the English language. There was no standard way of speaking or writing and no agreement as to the best way of bringing some order to the chaos of English spelling. Dr Johnson provided the solution.

There had, of course, been dictionaries in the past, the first of these being a short book of 120 pages, **compiled** by a certain Robert Cawdray, published in 1604 under the title *A Table Alphabeticall of hard usuall English words*. Like the various dictionaries that came after it during the seventeenth century, Cawdray's tended to concentrate on "scholarly" words; one function of the dictionary was to enable its student to convey an impression of fine learning.

Beyond the practical need to make order out of chaos, the rise of dictionaries is associated with the rise of the English Middle class, who were anxious to define and circumscribe the various worlds to conquer – **lexical** as well as social and commercial. It is highly appropriate that Dr Samuel Johnson, the very model of an eighteenth-century literary man, as famous in his own time as in ours, should have published his Dictionary at the very beginning of the **heyday** of the middle class.

Johnson was a poet and critic who raised common sense to the heights of genius. His approach to the problems that had worried writers throughout the late seventeenth and early eighteenth centuries was intensely practical. Up until his time, the task of producing a dictionary on such a large scale had seemed impossible without the establishment of an academy to make decisions about right and wrong usage. Johnson decided he did not need an academy to settle arguments about language; he would write a dictionary himself; and he would do it single-handed. Johnson signed the contract for the Dictionary with the bookseller Robert Dosley at a breakfast held at the Golden Anchor Inn near Holborn Bar on 18 June 1764. He was to be paid £1,575 in instalments, and from this he took money to rent 17 Gough Square, in which he set up his "dictionary workshop".

James Boswell, his biographer, described the **garret** where Johnson worked as being "equipped like a counting house (= *the name given to early businesses which safely stored public and private money, and loaned money*)" with a long desk running down the middle at which the copy clerks (= people who *perform basic office functions that do not require professional skills or qualifications.*) would work standing up. Johnson himself was stationed on a **rickety** chair at an "old crazy deal table" surrounded by a chaos of borrowed books. He was also helped by six assistants, two of whom died whilst the Dictionary was still in preparation.

The work was immense; filling about eighty large notebooks (and without a library to hand), Johnson wrote the definitions of over 40,000 words and illustrated their many meanings with some 114,000 quotations drawn from English writing on every subject, from the Elizabethans to his own time. He did not expect to achieve complete **originality**. Working to a deadline, he had to draw on the best of all previous dictionaries, and to make his work one of heroic synthesis. In fact, it was very much more. Unlike his **predecessors**, Johnson treated English very practically, as a living language, with many different shades of meaning. He adopted his definitions on the principle of English common law – according to precedent. After its publication, his Dictionary was not seriously rivalled for over a century.

After many **vicissitudes** the Dictionary was finally published on April 15, 1775. It was instantly recognised as a landmark throughout Europe. "This very noble work," wrote a leading Italian lexicographer, "will be a perpetual monument of fame to the author, an honour to his own country in particular, and a general

©Michael Warrick 2024

benefit to the republic of letters throughout Europe." The fact that Johnson had taken on the Academies of Europe and matched them (everyone knew that forty French academics had taken forty years to produce the first French national dictionary) was cause for much English celebration.

Johnson had worked for nine years, "with little assistance of the learned, and without any **patronage** of the great; not in the soft obscurities of retirement, or under the shelter of academic bowers, but amidst inconvenience and distraction, in sickness and in sorrow". For all its faults and eccentricities his two-volume work is a masterpiece and a landmark, in his own words, "setting the orthography, displaying the analogy, regulating the structures, and ascertaining the significations of English words." It was the **cornerstone** of Standard English, an achievement which, in James Boswell's words, "**conferred** stability on the language of his country." The Dictionary, together with his other writing, made Johnson famous and so well esteemed that his friends were able to prevail upon King George to offer him a pension. From then on, he was to become the Johnson of folklore (= the traditions and stories of a country).

1. Use the context in the above passage to guess the meaning of the words below

a) Compiled: …….

b) Lexical: …….

c) Heyday: ……

d) Garret: ……..…….

e) Rickety: ……

f) Originality: ……..…….

g) Predecessors: ……...

h) Eccentricities: ……..

i) Vicissitudes: ……

j) Patronage: ……

k) Conferred: ……

l) Cornerstone: ……

DEALING WITH UNFAMILIAR VOCABULARY

2. Match the words with their meanings:

1. Compile

a) to translate instructions from one computer language into another so that a particular computer can understand them

b) to produce a book or report by bringing together different items, such as articles or songs,

c) to work together with somebody in order to produce or achieve something

2. Lexical

a) connected with the grammar of a language

b) connected with the sounds of a language

c) connected with the words of a language

3. Heyday

a) the time when somebody/something had most power or success, or was most popular

b) the time when somebody/something had least power or success, or was least popular

c) the time when somebody/something began to be powerful, popular or successful

4. Garret

a) a room or space just below the roof of a house, used for storing things

b) (British English) a large house in a town

c) a room, often a small dark unpleasant one, at the top of a house, especially in the roof

5. Rickety

a) not easily influenced or changed by other people

b) not strong or well made; likely to break

c) strong and not easily damaged

6. Originality

a) the quality of being special and interesting and not the same as anything or anyone else

b) not the result of new ideas, but has been developed from something else

c) strict observance in keeping engagements; promptness

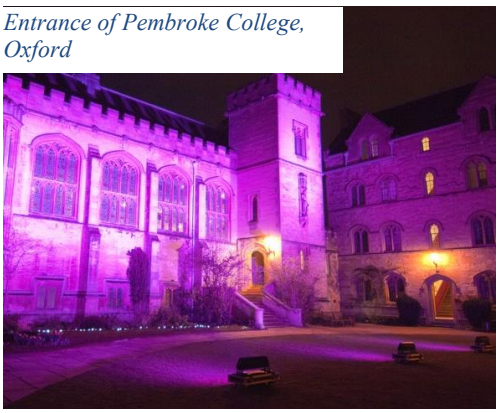
REVIEW: DEALING WITH UNFAMILIAR VOCABULARY



Entrance of Pembroke College, Oxford

7. Predecessor

a) a person who did a job after someone else

b) a person who did a job before somebody else

c) a person who completed a job successfully

8. Eccentricity

a) the way that somebody behaves, especially towards other people

b) an unusual act or habit

c) a way of doing something, especially one which is typical of a person, group of people, place or period

9. Vicissitude

a) a remark or statement that may be true but is boring and has no meaning because it has been said so many times before

b) an expression of great sadness or disappointment

c) one of the many changes and problems in a situation or in your life, that you have to deal with

10. Patronage

a) the act of expressing disapproval of somebody/something and opinions about their faults or bad qualities;

b) the support, especially financial, that is given to a person or an organization

c) admiration and praise, especially when this is greater than is necessary

11. Confer

a) to give somebody an award, a university degree or a particular honour or right

b) to discuss something with somebody, in order to exchange opinions or get advice

c) to stop; to make somebody/something stop

12. Cornerstone

a) a stone at the corner of the base of a building, often laid in a special ceremony

b) a mixture of sand, water, lime and cement used in building for holding bricks and stones together

c) the most important part of something that the rest depends on

EAP READING: JOHNSON'S DICTIONARY

*Questions 1-3: Choose **THREE** letters **A—H.***

Which **THREE** of the following statements are true of Johnson's *Dictionary?*

A. It avoided all scholarly words.
B. It was the only English dictionary in general use for 200 years.
C. It was famous because of the large number of people involved.
D. It focused partly on language from contemporary texts.
E. There was a time limit for its completion.
F. It ignored work done by previous dictionary writers.
G. It took into account subtleties of meaning.
H. Its definitions were famous for their originality.

Questions 4-7: Complete the summary.

*Choose **NO MORE THAN TWO WORDS** from the passage for each answer:*

In 1764 Dr Johnson accepted the contract to produce a dictionary. Having rented a garret, he took on a number of **4.** …… who stood at a long central desk. Johnson did not have a **5.** …… available to him, but eventually produced definitions of in excess of 40,000 words written down in 80 large notebooks. On publication, the Dictionary was immediately hailed in many European countries as a landmark. According to his biographer, James Boswell, Johnson's principal achievement was to bring **6.** …….. to the English language. As a reward for his hard work, he was granted a **7.** ……. by the king.

TRUE, FALSE OR NOT GIVEN

Questions 8-13

Do the following statements agree with the information given in Reading Passage? Write:

TRUE if the statement agrees with the information

FALSE if the statement contradicts the information

NOT GIVEN if there is no information on this

8. The growing importance of the middle classes led to an increased demand for dictionaries. ___

9. Johnson has become more well known since his death.____

10. Johnson had been planning to write a dictionary for several years. ____

11. Johnson set up an academy to help with the writing of his *Dictionary.* ____

12. Johnson only received payment for his *Dictionary* on its completion. ____

13. Not all of the assistants survived to see the publication of the *Dictionary.*____
