Michael Warrick

ADJECTIVE + NOUN COLLOCATIONS

1. Match the ADJECTIVE + NOUN academic collocations below:

NOUNS	ADJECTIVES
1. APPROACH _i_	**a)** careful – detailed – full - serious - adequate - due - proper - sufficient - special - urgent - active
2. CONSIDERATION __	**b)** distinctive - distinguishing – individual – marked – special – striking - unique - personal - common, - family - inherited - national - shared - basic - general – dominant - main - major - outstanding - principal - essential - fundamental - important - key - desirable - cultural - demographic –genetic - physical - psychological - social - human
3. IMPLICATION __	**c)** critical - crucial - important - key - main - major – essential - fundamental - underlying - clear - definite - marked - obvious - fine subtle - broad, simple – logical - valid - useful - arbitrary - artificial - conventional - old - traditional - class - cultural - gender - moral
4. FUNCTION __	**d)** far-reaching - important - profound – adverse - catastrophic - devastating - disastrous - fatal – harmful - negative - serious - severe - unpleasant - beneficial - positive - major - main – direct - immediate - inevitable - likely - possible - potential - long-term - short-term - unintended - economic - environmental - financial - political
5. STRATEGY __	**e)** considerable - enormous - important, major, massive - main - fundamental - profound – broad - far-reaching - wider - clear - obvious - further - possible - potential - future - long-term - adverse - negative - commercial - environmental - ethical - financial - legal, moral - philosophical - political - social - safety - security - tax
6. CHARACTERISTIC __	**f)** complete - comprehensive - partial – effective – optimal – perfect – real - acceptable – satisfactory - workable - correct, right - obvious, simple - possible - feasible - practical – realistic - viable - creative - drastic - radical - immediate, instant - speedy - final - lasting - long-term - permanent - short-term - temporary - proposed - pragmatic - diplomatic – peaceful - political - technical

©Michael Warrick 2025

7. DISTINCTION __	**g)**	Considerable - outstanding - major - substantial – important - vital - adequate, sufficient - limited - scarce - renewable - sustainable - unlimited – limited - available – additional - extra - invaluable - useful - untapped - natural - material - physical - energy - financial - human - learning - library - teaching - national - inner - personal
8. CONSEQUENCE __	**h)**	Effective - successful - poor - clear - coherent - future - long-term - a medium-term - short-term - comprehensive – strategy - basic - broad - general - overall - key - global – international - dual - deliberate - proactive - defensive - high-risk - innovative - radical
9. RESOURCE __	**i)**	conventional - traditional - alternative - different - fresh – new - novel cautious, conservative – creative - innovative - flexible – direct - positive - practical - pragmatic - right - wrong - analytical – scientific - systematic - theoretical - holistic - integrated - basic - general - simplistic
10. SOLUTION __	**j)**	crucial - essential – critical - important – useful – valuable - vital – chief - main, major – primary – prime - dual - bodily, brain - liver - mental - cognitive - particular - specific - proper - useful - absolute

A Definition of RESOURCE

1. [countable, usually plural] a supply of something that a country, an organization or a person has and can use

    - *The country has few natural resources and depends on massive imports of raw materials.*
    - *Decisions regarding resource allocation are ultimately taken by headquarters.*

2. [countable] something that can be used to help achieve an aim, especially as a part of work or study

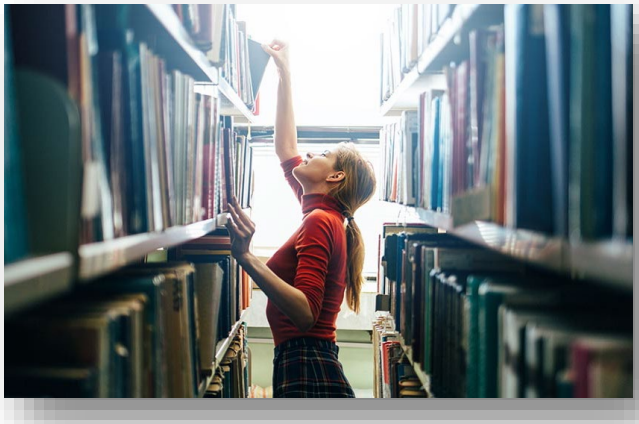
    - *In addition to printed material, there is an extensive range of online resources covering issues of globalization and social policy.*

3. (*resources*) [plural] personal qualities that help you deal with a situation

    - *Speakers of languages make use of their own linguistic resources in creating new words.*

©Michael Warrick 2025

COLLOCATIONS WITH *RESOURCE (adjective + resource)*



1. Complete the following sentences with a suitable adjective to collocate with *resource*.

More than one answer may be possible:

a) The students who interact more with …… *resources* tend to have a better understanding of class activities and stronger academic ability.

b) …… *resources* are virtually inexhaustible in duration but limited in the amount of energy that is available per unit of time.

c) Africa is the next frontier – a continent full of possibility, a market of …… and underutilized natural and human *resources*.

d) If there were …… *resources*, then scarcity would not exist.

e) …… *resources* are vital for firms in a variety of ways, from strategic planning to company image.

f) Limited …… *resources* may force companies to make tough decisions about which assets to maintain or replace.

g) …… *resources* can be defined as "individuals' sense of their ability to successfully. control and impact their environment.

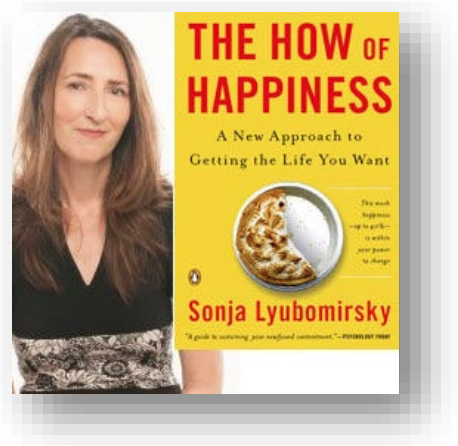
PARAGRAPH UNITY (all sentences are relevant to the topic)



One characteristic of good writing is unity. When a paragraph has unity, all of the sentences relate to the topic. If a topic sentence states that a paragraph will be about how to prepare for a successful job interview, *all sentences in the paragraph should refer to job interview preparation*. Read each paragraph, indicate which sentence does not support the topic sentence and explain your choice.

A. It has been demonstrated that happiness activities can counteract negative thoughts and bolster positive thinking. **1.** Dwelling on regrets or anxieties often has the effect of intensifying pessimistic thoughts, while hopeful expectations produced by an optimism strategy may replace such negativity. **2.** These strategies encourage a more constructive and positive outlook, which can help individuals navigate daily challenges with greater resilience. **3.** Such mental shifts may further increase workplace productivity and team cohesion. **4.** As mentioned previously, a recent study (Lyubomirsky *et al*., 2008) has shown that individuals who actively and regularly practiced expressing gratitude or optimism tended to find everyday events (such as meeting a friend, commuting to work, or cooking dinner) more satisfying. **5.** These individuals also reported more grateful, optimistic, autonomous, and relationship-enhancing thoughts (Lyubomirsky *et al*., 2008).

Sentence number: .....

Explanation: .....

B. The Earth's rainforests are being destroyed at an alarming rate, with severe consequences for the environment and global biodiversity. **1.** Recent reports from environmental organisations highlight how extensive and urgent the crisis has become. **2.** Rainforests once covered approximately 14 per cent of the world's land surface, but this figure has now fallen to just 6 per cent (World Wildlife Fund, 2018). **3**. According to Travis (2018), an estimated one and a half acres of rainforest are cleared by logging operations every second. **4.** This widespread deforestation is believed to be responsible for the loss of around 137 species of plants, animals, and insects each day — amounting to nearly 50,000 species per year (Frontier, 2014). **5.** If this rate of destruction continues, the remaining rainforests could vanish within decades, posing severe ecological and climatic threats on a global scale. 6. In

©Michael Warrick 2025

response, any long-term solution must prioritise the sustainable use and responsible development of rainforest resources.

Sentence number: .....

Explanation: .....

C. Evidence from credible sources is essential to producing academic writing that meets university standards. **1.** The expectation that evidence will be used is found within the assessment frameworks of every UK Higher Education institution, and the standard of evidence required increases at each respective level of study (OFQUAL, 2020; UUK, 2020). **2.** These levels often coincide with increasing expectations for clarity and structure in student writing. **3.** However, there are differing viewpoints as to which types of evidence are credible and usable. **4.** Academic sources, such as peer-reviewed journals and books, and official sources may be seen as more desirable in a traditional and conventional hierarchy (Smith, 2016, p.163; Hyden, 2013); **5.** on the other hand, in many contexts it is now both acceptable and, in some cases, preferable to use a broader variety of sources, many of which are Internet-based, in order to gain a wider perspective.

WRITE YOUR OWN ACADEMIC COLLOCATIONS IN CONTEXT

INSTRUCTIONS

1. **Use a collocation dictionary only**
   Choose the most appropriate word in each pair and write one grammatically correct, academically appropriate sentence for each set. The sentence should reflect the topic indicated.

2. **Peer review**
   Swap your work with a classmate and give each other brief feedback on accuracy, appropriateness, and clarity.

3. **Use AI**
   After peer feedback, consult AI for corrections and suggestions.

CLIMATE CHANGE

a) **Example:** *(long-term/long-run + perspective): Understanding the causes and consequences of wildfires requires a long-term perspective.*

SCIENCE

b) (*practical / prominent* + IMPLICATIONS):

INTRODUCTIONS REVIEW

1. Label each sentence to indicate the type of information provided:

ESSAY TITLE: *Assess the impact of privatization on the performance of the UK economy*

a) …… In recent years the privatization of state-owned businesses, especially monopoly utilities such as electricity and telecoms, has become widespread in both developed and developing nations.

b) ……. Privatization refers to the process of certain industries from state control to the private sector, which began in Britain in 1981 with British Telecom.

c) ……. As privatization is increasingly seen as a solution for economic problems in many other countries, it is worth examining its impact in Britain, which was a pioneer in this process.

d) ……. Only privatizations completed between 1985-2000 will be considered, as it is too soon to assess the repercussions of later developments.

e) …… This essay will evaluate the effects of privatization on the UK's economic performance at the level of individual industries themselves and the UK as a whole.

2. Analyze the thesis statement to answer the following questions:

a) Note down the key question verb that verb that introduces the writer's thesis statement: ……..…...

b) Which words have paraphrased *assess*, *impact* and *economy*?

……..……..……..…….

THE OPENING SENTENCE OF AN INTRODUCTION

It can be difficult to start writing an essay, and hesitation, especially in exams, can waste valuable time. An opening sentence often (but not always!) has the following pattern:

Time phrase	Topic	Development
Currently,	many multinational corporations	are focusing on enhancing their reputation in order to gain a competitive advantage.

The opening sentence often contains a time-phrase, followed by a verb in the appropriate tense.

1. Give the tense and correct form for each verb in parentheses:

a) *In the late 20th century* Finland (experience) ……..…….. record-breaking warm winters, but also some rather cold and snowy winters.

b) *At present* greenhouse gas emissions from the household sector (account) …….. for almost one-fifth of Australia's total emissions (The Climate Institute, 2015).

c) *The last decade* (see) …… a rapid expansion in the number of hotels and other tourism facilities in Qatar.

d) *Traditionally*, businesses (rely) …… on multiple vendors and service providers for their technology and networking needs.

e) *The 1990s* (characterize) ……. by the massive growth of prison populations throughout Western societies (Garland, 2001).

f) The Western Black Rhino and Northern White Rhinos *recently* (go) ……..…….……. extinct in the wild.

g) *Currently*, Italy (be) ……. the 8th largest export economy in the world, and its main export markets are Germany, France and the US (Workman, 2018).

h) *In the past*, surgeons (have) ……. to make large incisions in order to reach the organs during a surgical procedure.

i) *In recent years*, the streaming of classes by ability (become) ……..…… a highly controversial issue.

2. Which time phrases have a similar meaning? ……

……..

PROOFREADING: GRAMMAR, VOCABULARY AND STYLE CORRECTION (OPTIONAL)

Read the academic introduction to an essay below. There are several errors in grammar, vocabulary, or academic style. Use this table to help identify and label the types of errors. Not all the categories will be needed.

Common Error Categories
Verb Tense
Verb Form
Word Form
Wrong Word
Wrong Preposition
Formality / Style
Singular/Plural
Spelling
Punctuation
Missing word

Your task is to:

1. *Identify the error*
2. *Label the type of error (e.g., verb tense, word choice, collocation, etc.)*
3. *Provide the correct version*

Having been victim of aggression **1)** *between* (error type: ……..; correction: ……..) the Second World War, China came to understand the significance of globalization and **2)** *abandons* (error type: ……..; correction: ……..) the policy of **3)** *isolatable* (error type: ……..; correction: ……..). China subsequently devoted itself to **4)** *establish* (error type: ……..; correction: ……..) closer relations with countries in order to ride the wave of globalization. This has significantly increased economic growth and **5)** *risen* (error type: ……..; correction: ……..) living standards for Chinese citizens. **6)** *But* (error type: ……..; correction: ……..) the fruits of economic development have not **7)** (error type: ……..; correction: ……..) evenly distributed. According to recent data from the World Inequality Lab (2024), the poorest 25 per cent of Chinese households **8)** *are holding* (error type: ……..; correction: …….) less than 2 per cent of the nation's total wealth, while the top 10 per cent control nearly 70 per cent. Despite efforts to reduce inequality through tax and social reforms, the trend toward wealth concentration persists. The purpose of this *article* **9)** (error type: ……..; correction: …….) is to evaluate the phenomenon of income inequality in China, as shown by two indicators: the Gini coefficient and comparisons of income distribution in urban and **10)** *natural* (error type: ……..; correction: …….) areas

SUPPLEMENTARY: AGREEMENT AFTER QUANTIFYING PHRASES

1. Use the rules in the table to choose the correct form the verbs in sentences a-i:

AFTER THESE EXPRESSIONS…	
• *any of, none of, the majority of, all (of), some (of)* + singular/uncountable noun • *the number of* + plural noun • *every, each* + singular noun • *everyone, everybody, everything* (and similar words beginning any-, some-, and no-) • a measurement, amount or quantity	**Use a singular verb**
• *any of, each of, either of, neither of, none of* + plural noun/pronoun	**use a singular verb (although a plural verb is possible in less formal contexts)**
• *a/the majority of, a number of, all (of), some (of)* + plural noun/pronoun	**use a plural verb**
• a complex subject in which the first noun is a percentage, a fraction, or a proportion	**the verb agrees with the noun closest to the verb**

a) In most well-developed economies, such as those in Canada, the United States, Japan, and Western Europe, the majority of the workforce is/are employed in service industries.

b) It is noteworthy that approximately 80% of the responses was/were from women.

c) *In the UK, the number of students* studying for a language degree and spending an extended period abroad has/have been declining for several years.

d) *Each of these methods of* giving feedback helps/help to improve the performance of students.

e) In light of these considerations, *neither of the options seems/seem* promising.

f) The majority of cases of flu occurs/occur between December and February.

g) Not everyone agrees/agree that students should be streamed by ability.

h) Nearly three quarters of the sample (72.69%) has/have reported feeling sad, unhappy, or depressed.

i) In China, over one in ten of the population is/are 65 or more, resulting in the working population falling to its lowest level for a decade last year (Evans, 2018).
