Global Buddies - Peer Support

Are you a new international student? The Global Buddies scheme can provide you with peer support and guidance from a current student.

You can receive **one-to-one support from a current student**, as well as access to free and fun **monthly social events** from the start of the academic year in September until January.

You can request a buddy once you have confirmed your place at the university.

Apply Now

How your buddy can help you

A buddy is a current student at the university, usually within their second or third year. They can help by:

- Offering advice based on their experiences
- Introducing you to relevant university services
- Informing you of societies and events
- Recommending local facilities and attractions

Buddies cannot provide academic or mental health support but will put you in touch with services that can. For academic peer support, see your module information pages on Moodle or ask your personal tutor.

How to request a buddy

Complete The Form

Where possible, we aim to match new students with buddies studying a similar subject to them. You may also state a preference based on characteristics such as:

- LGBTQ+ identity
- Faith, ethnic or cultural background
- Care leaver or estranged student status
- Mature student status

Once you have been paired with a buddy, you will receive an introductory email from them before starting your course.

You can decide with your buddy how you wish to be contacted. You will hear from your buddy every 1 to 2 weeks.

Conversations with your buddy will remain private. Confidentiality will only be broken in line with our safeguarding policy.

Before ending your buddy relationship in January, your buddy will give you the chance to ask any final questions.

If your buddy does not contact you

If you do not receive an email from your buddy within 3 weeks of submitting your request form, check your junk or spam folder. If you still have not received an email, contact us at globalbuddies@nottingham.ac.uk
